Office Action Summary

1. The amendment filed on 1-24-2002 canceling all claims (or claimed limitations) drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because original claim 31 claims character-recognition means for character-recognizing the **digital data** converted from the image information, and the present amendment claims optical character recognition means for analyzing obtained image data by using **optical character recognition**.

Similar situation is applied on other independent claims 55-56.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS**, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. **EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.**

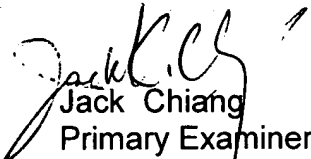

(NOTE: the present amendment has retained claim number 31, but the body of the claim has been replaced with a new scope of invention. This is treated as a submission of a new claim. It is suggested that if applicant meant to submit a new claim, it should start with a new numeral).
